

About

Basile Walder is primarily active in the field of commercial law, with a focus on corporate law and contract law. In parallel, he has a strong interest and practices in employment matters, data protection and privacy laws as well as legal aspects related to advanced technologies. He is regularly involved in deals and corporate restructurings for large companies, banks, start-ups or investors, including acquisitions, mergers and transformations of companies. He also advises clients in the context of IT outsourcing projects (both ITO and BPO).
